1.0 SCOPE OF WORK

On October 30, 1987, the U.S. Government issued a final rule under Section 203 of Title II of the Toxic Substances Control Act (TSCA) entitled Asbestos Containing Materials in Schools, 40 CFR 763. The United States Environmental Protection Agency (EPA) was charged with enforcing this ruling, which was the result of federal legislation known as the Asbestos Hazard Emergency Response Act (AHERA). This action represented a substantial expansion of the 1982 version of 40 CFR 763 and placed several additional burdens on the Local Education Agency (LEA).

An AHERA re-inspection and management plan was prepared for J.H.S. 67Q (hereafter referred to as "the school"), located at **51-60 Marathon Parkway Little Neck, NY 11362-**, New York, by the New York City Department of Education, partially based on the previous three-year reinspection, and on the present visual observations, bulk sampling and analysis. All suspect asbestos containing building materials (ACBM) with an asbestos content greater than one percent (non-friable as well as friable) were identified by an EPA/NYS-DOL accredited inspector/NYC-DEP accredited investigator. Newly identified suspect ACBM and previously assumed ACBM were either tested to determine asbestos content, or were assumed to be ACM. All friable and non-friable ACBM's were then assessed for present condition as well as potential for disturbance. With the inspection results, an asbestos management plan was developed for the building by an EPA /NYS-DOL accredited management planner.

From 4/14/08 through 5/6/08, Precision Environmental Inc. performed the required AHERA three year re-inspection at the school.

As per AHERA regulations, future periodic surveillance and reinspection shall be conducted following the schedule outlined below:

1st	<u>11/8/2008</u>	Name	Signature	Date
2nd	<u>5/8/2009</u>	Name	Signature	Date
3rd	<u>11/8/2009</u>	Name	Signature	Date
4th	<u>5/8/2010</u>	Name	Signature	Date
5th	<u>11/8/2010</u>	Name	Signature	Date
Reinspection	<u>5/8/2011</u>			

1.1 PREVIOUS INSPECTION

Records obtained from the NYC Department of Education and/or the NYC School Construction Authority indicate that the following full-scale inspections and bulk sampling were previously performed at the school:

Date	Company
3/14/1989	NYC-DOE

1. AHERA Inspection and Reinspections:

Date	Company
7/1/1997	Enviro Techniques, Inc.
7/24/2000	ATC Associates, Inc.

2. Operation Clean House (OCH) Inspection:

Date	Company
9/9/1993	B & D Materials Testing Corp.

Copies of the above reports and analytical results can be found at either the NYC Department of Education, Environmental Health and Safety Unit, 44-36 Vernon Boulevard, Long Island City or the NYC School Construction Authority, 30-30 Thomson Avenue, Long Island City.

As part of the initial AHERA inspection and the last three-year reinspection procedure, the New York State Education Department (SED) recommended that AHERA forms 1 through 4 be completed in order to compile AHERA form 5. For compliance and recordkeeping, the NYS-SED requires NYC-DOE to fill out and submit to them a "School Building Data" form. The NYC Department of Education provided the school district with binders containing the completed State forms, the management plan and the floor plans identifying the areas surveyed.

1.2 REINSPECTION

From 4/14/08 through 5/6/08, a new three-year AHERA re-inspection of the school, and subsequent bulk sampling, was performed by the following NYS/AHERA accredited inspector(s):

Name	NYSDOL #	ExpDate	NYSDOH #	ExpDate	NYCDEP #	ExpDate
Syed Uddin	90-16406	2/28/2011	565198	11/24/2010	112918	2/21/2011
Viktor Frolov	04-10996	4/30/2010	547168	4/7/2010		
Chacko Mathew	92-14746	5/31/2010	547230	4/21/2010	110133	5/31/2010
Thomas Subash	06-09096	5/31/200	485617	4/25/2008	106803	5/3/2010
Andreas Andreou	93-18603	12/31/20	565128	11/13/201	112385	12/5/201

The management plan was developed by the following NYS/AHERA accredited Management Planner(s):
